

## MAJORITY PLANS FORCED VOTE ON HUGHES QUESTION

Administration Group Frankly  
Worried Over Confirmation  
Of the Appointee

### THE OPPOSITION GROWS

Indicated 34 Senators Will  
Vote Against Confirming  
of New Chief Justice

By William K. Hutchinson  
I. N. S. Staff Correspondent

WASHINGTON, Feb. 13.—The Administration majority in the Senate, frankly worried, planned to force a vote in the Senate today on confirmation of Charles Evans Hughes as Chief Justice of the United States in the belief that further delay will endanger his tentative seat on the Supreme Court.

The opposition to Hughes, growing from thin air, has swept through the Senate like a prairie fire, until private polls indicated 34 Senators would vote against his confirmation. If the polls were true, Administration leaders, however admitting but twenty votes in opposition, the foes of Hughes would need but fourteen more converts to defeat his confirmation—something that has never happened to a nominee for Chief Justice in the history of the country.

The opposition may seek to recommit Hughes' nomination to the Senate Judiciary Committee for further investigation. If this maneuver succeeds, Hughes will be invited before the committee to explain his legal activities for various corporations. One suggestion has been made privately that he be asked to disclose the total amount of his retainers, said to have averaged \$500,000 a year, and their sources since he resigned as Secretary of State. He would also be asked to reveal the identity of his corporation clients at the present time.

The fight against Hughes was based solely on his public attitude toward economic questions involving property rights and the interests of corporations. Just as conservative politicians would oppose the appointment of a radical insurgent like Brookhart, to the Supreme Court, so a Democratic-insurgent coalition is opposing Hughes, on the ground that he is a "reactionary." His opponents have at all times conceded the nominee's legal ability, personal integrity and moral qualifications.

The only question before the Senate was whether it would confirm as chief justice a lawyer who fought a five-cent fare, who argued that a return of 6.26 per cent on capital investment of a corporation was "confiscatory," who contended radio broadcasting companies had an absolute right to the air, who protested against Congress enacting a law stamping out corruption in Senatorial primaries and who declared the Federal courts had jurisdiction over public utilities, whose entire activities were within the confines of a single state.

Senator Norris (R) of Neb., insurgent leader, opened the fight. At first even he conceded the "unanimous confirmation" of Hughes. Then he and Senator Blaine (R) of Wis., opposed it in committee. Next, Senator Borah (R) of Idaho, joined the opposition.

## MUST FASTEN PAPERS, UNDER TOWN ORDINANCE

All Rubbish Which Might Be  
Scattered Around Must  
Be Securely Tied

### THEY NOW LITTER STS.

The subject of cleaner streets in the business section and the prohibition of that which tends to litter the streets of the borough with paper and rubbish was the subject of much discussion by Borough Council on Monday evening.

The Mill Street Business Men's Association in a communication to the borough legislative body urged the more frequent cleaning of that thoroughfare. This communication induced comments of a pro and con nature from the councilmen. It was generally agreed however that a more careful placing of papers along the streets, preparatory to collection, should be exercised. It was also the consensus of opinion that the borough ash collector should be imprompted to exercise more care in going about his duties.

Coming out of these discussions was the suggestion that residents not only of Mill street but in all sections of the borough be compelled to securely tie or fasten papers and other debris of a nature which might be blown about the streets by the wind.

"The ash collector should be cautioned about permitting the paper and debris to blow from his wagon after he has emptied the receptacle," said one of the councilmen.

The question then naturally reverted to the ordinance regulating the collection of ashes and rubbish within the borough of Bristol, and providing penalties for the violation thereof.

"Have the public press print the ordinance and so inform all parties concerned as to what is required of them in this matter," said a councilman.

The ordinance above referred to was enacted by borough council November 8, 1926, and approved by Burgess Clifford L. Anderson on the same day.

Article D of Section 4 reads:

"Definition of Rubbish: The term 'rubbish' means all rubbish from places of residence and an amount not exceeding 150 pounds from retail store buildings will be held to include bottles, mattresses, worn-out furniture, old clothes, old shoes, leather, carpets, broken glass, crockery, tin cans, metals, rubbers, discarded Christmas trees and gutter sweepings, and when tied in separate bundles, paper, rags, small branches from shrubs and vines, cut grass and leaves. It will not, however, include any material whatever in the nature of earth, sand, lumber, brick, stone, plaster or other substances that may accumulate as the result of building operations, nor will it include garbage or dead animals."

### Paper Plant to Expand; Plan to Build Addition

Plans are being made by the Paterson Parchment Paper Company to enlarge their plant at Tullytown in the near future.

While the details are at this time more or less in an embryo state yet it is said that there will be quite an addition built to the present plant and a building large enough to accommodate four paper machines will be erected. Only two machines, however, will be installed at first.

Inquiry at the local office of the concern today failed to reveal any information as to the proposed expansion.

## OVER 100 CAUGHT IN RAID ON MOTOR TRUCKS

Complete Report of Campaign  
Waged by Highway Patrol  
Officers Mon. and Tues.

### ALL PAY THEIR FINES

A complete report of the campaign waged by the State Highway Patrol against the drivers of motor trucks operating without the necessary Pennsylvania license has been submitted by Sergeant James J. Toocy who was in charge.

Following numerous complaints from trucking concerns outside the State, who have complied with the law by procuring Pennsylvania registration licenses, Sergeant Toocy, in charge of a number of State Highway Patrol stations in this section, assisted by patrolmen from South Langhorne, Edison and Collegeville, conducted a campaign which began at 9 o'clock Sunday night and which ended Monday noon with the arrest of 103 persons. A majority of the motorists arrested represented New Jersey trucking firms.

Truckers from New Jersey and New York have frequently been making complaint of late because they claim some of the other truckers have not been procuring registration licenses in order to operate their cars in Pennsylvania. It was with the latter class with whom the arrests had to deal.

The head of one trucking firm explained that he had a fleet of about 20 trucks, for which he has procured licenses at an average cost of \$20 per car. This meant an annual outlay of about \$400. This, he explained, was unfair, because in abiding by the law, he has a heavier overhead than those who fail to procure licenses.

Patrolmen were stationed in South Langhorne, Bristol and Morrisville. Included in the 103 arrests were a number of New Jersey motorists, who make a practice of driving small trucks into this state and who had failed to procure Pennsylvania licenses.

Two Philadelphia residents were arrested by one of the South Langhorne patrolmen. As he was about to stop the car approaching him the officer saw the man in the driver's seat reach over to the man accompanying him and take something from his hand.

Investigation on the part of the patrolman revealed that the driver of the machine, J. A. Morris, 1329 North Sixth street, Philadelphia, had no operator's license and that the man accompanying him, John J. Naughton, 1332 North Lawrence street, Philadelphia, had lent Morris his license. Both were placed under arrest and in default of a fine of \$50 each, were lodged in the county prison for ten days.

All of the other motorists were given hearings before Justices Keating, South Langhorne; Lynn, Bristol, and Nolan, Morrisville. The fines ranged from \$10 to \$50 with costs of \$2.25 in each instance. However, one driver was compelled to pay a fine of \$75 and costs owing to the fact that his truck had a number of defects which should have been corrected during the recent inspection drive.

## GROWTH OF WORLD'S ATTITUDE TOWARD PEACE FORMS THE BASIS FOR PRIZE ESSAY WRITTEN BY MISS SUE STRUMFELS, BRISTOL HIGH GRADUATE

Composition Wins for the Author the Mothers' Association  
Award—Paragraphs Read by Miss Strumfels at February  
Class Commencement Exercises Well Received

Miss Sue Strumfels' essay, recently written, won for her the Mothers' Association prize, offered to the member of each graduating class of Bristol high school submitting the best essay. The composition as given by Miss Strumfels at the commencement exercises of the February Class of 1930 on Tuesday evening, is herewith presented:

### PEACE

By Miss Sue Strumfels

Peace and quiet pervaded the cool, green forest. The foliage of the tall trees swayed gently in the summer breeze. Between the trees a limpid stream rippled happily on its way to the river. But, somehow, one sensed a feeling of tenseness, of preparedness, that seemed strangely out of place here. Suddenly the tension was broken as the undergrowth on either side of the stream was parted. Out of the openings stepped two creatures, almost identical in appearance, shaggy hair, matted beards covering their brutal features, muscular, hair-covered bodies, skins of animals forming a partial covering for these bodies—here we have a picture of two of our prehistoric ancestors.

From the half-parted lips of one issued a guttural sound, accompanied by an imperious wave of the arm that clearly commanded the other to depart. From the throat of the other came a cry of challenge and without more ado they threw themselves fiercely at each other's throat, determined to settle the issue by brute strength. No attempts to conciliate, no efforts to arbitrate marked this encounter. Their meager intelligence told them only to follow the method of the beasts in settling their dispute.

The Greeks in the full glory of their high civilization relentlessly warred upon lesser nations for spoil and plunder. But finally Greece fell!

Rome rose to a high degree of culture and learning. She, too, ravaged and devastated other nations to gain extensive possessions. Rome, also, was razed to the ground!

As we come up through history we find, in the New Testament, the greatest advocate of peace this world has ever known—Jesus Christ of Nazareth.

Many became converts and followers of the great Teacher but still the practice of warfare continued throughout the centuries.

Then came the rise of the European countries. War and bloodshed went hand-in-hand with the growth of these countries. Was there a question of boundary, of politics, of religion, to decide? The old adage of "might being right" was applied. Peace? Bah! a resort of the weakling! Thus might the fighting gentleman of the mediaeval age have stated his opinion of peace. Through these centuries, Mars, the god of war, held sway.

But in the late years of the nineteenth century and in the early years of the twentieth, men began to realize that the abolition of fighting, quarreling, and warring was as important a question as problems of commerce and politics.

Then came the World War—a warning that must not go unheeded! The machinery of modern warfare relentlessly ground up in its huge maw land, property, money and millions of human lives! And what was the result of this dissension?—devastation, poverty, men cut off in the prime of life, others maimed and disfigured, homes ruined—this, yes, all of this was the outcome of man's inability to dwell peacefully and amicably with his fellow man.

As we look about us we realize that we are living in the most enlightened age this earth has ever seen. Inventions that make our daily living easier and more enjoyable, better economic and social conditions—all blessings that we unconsciously assume to be our birthright. We surely believe our intelligence to be far beyond that of our prehistoric ancestor. And contrary to his ideas we know that fighting is not a necessary means of adjusting differences. Man is not human, and as long as mankind exists there will be conflicting opinions—but these conflicts can be settled by peaceful methods. But—not until we believe in this idea thoroughly and adhere to it faithfully, not until we stand hand-in-hand together against fighting—shall we have the supreme mark of true civilization—peace!

## THREE INJURED AS FOUR AUTOS CRASH

Bright Headlight of Trolley is  
Blamed for Series of  
Collisions

### NESHAMINY WAS SCENE

Three persons were injured last night in a series of accidents involving four machines at Neshaminy. The mishaps which occurred on the Easton Highway were blamed on the bright headlight on a Doylestown-Wilow Grove trolley car.

James T. Conlin, of unknown address, is in the Doylestown Emergency Hospital, suffering from injuries to his body. His condition is not serious, and he is being held under observation.

Miss Ella Swartzlander, of 82 East State street, Doylestown, received lacerations of the right arm, while her brother, Frank, 18 years old, suffered a broken nose and lacerations of the forehead. Another sister, Florence, escaped injury.

Conlin was walking along the highway when the headlight of a Doylestown-Wilow Grove trolley car blinded him and he did not see an approaching truck driven by Hiram O. Gross, of Fountainville. Louis Pierson, of Willow Grove, operator of the trolley, stopped his car to learn what had happened.

Harry W. Walton, of 428 Continental avenue, Hathor, came along in his car and crashed into the rear of the truck. No one was hurt, but his car was badly damaged.

Miss Swartzlander a few minutes later drove her car into the Walton machine. The occupants of the Swartzlander car were tossed into the road. Louis R. Speas, of 100 East Oakland street, Doylestown, was the last victim to crash into the wreckage of the other machines.

Troopers attached to the Edison State Highway Patrol went to the scene to investigate. All the autoists told the troopers that the blinding headlight of the trolley was responsible for the mishaps. No arrests have yet been made.

The noted author has several new books which are graphic descriptions of the countries and people he has met in his extensive travels. One of the reasons of Mr. Dekobra's successes as an author is his exactitude of details, and his rule never to describe a country, its people or its morals without having made a personal observation of them. Schools to Be Staged at  
High School

### NAME THE COMMITTEES

C. Willard Schuster, Principal  
of Newtown Schools, Heads  
General Committee

Bristol on May 17th is to be the mecca for students from all of the public schools in Bucks County as the Bucks County Track and Field Meet is to be held here. This has been decided by the "Time and Place" committee of the county organization which is handling the annual competition of school athletes.

Every since the public schools of Bucks County have conducted an annual scholastic and field day, both the scholastic and field events have been staged at George School, Newtown.

The "Time and Place" committee visited Bristol and made a survey of the high school track and field and also the facilities offered by the gymnasium. All of the facilities were found to be very satisfactory and the committee expressed perfect satisfaction with the arrangements as suggested. The committee was informed by the School Board that all of the facilities here would be offered without any compensation and this also pleased those sponsoring the big event and will cut down the expense of the meet.

The scholastic contests, this year, will be staged in Quakertown, on March 29th, at which time all contests of a scholastic nature will be conducted.

The Bristol School Board is planning to have the local track put in A-1 condition and the field will be reconditioned in preparation for the big event, which is the outstanding feature in Bucks County athletic circles.

## THE \$30,000,000

Governmental economy speaks a language understood in every land and clime. Nations differ in their conceptions of navy and army and peace, but speak and understand as one when government extravagance is the subject of consideration.

All the world is thinking and talking world peace and disarmament while the London conference proceeds, yet the real impetus behind this desire for limitation of naval arms is the universal conclusion that all armed countries are maintaining armies and navies beyond economic reason. Millions of dollars are being invested in ships of war that were better invested in things of peace.

The United States submarine Y-4 cost \$6,913,375 to build and \$350,000 a year to maintain and operate. The aircraft carrier Saratoga, of the United States navy, cost \$10,948,011.44 to build and \$2,300,000 a year to operate and keep in condition. The nation's navy budget last year was \$374,000,000.

Last year the organized military forces of the nations of the world aggregated nearly 30,000,000 men. They were fed, housed, clothed and paid at the expense of the world's taxpayers. They produced nothing, and had there been a reduction along the line national security everywhere could have been preserved by a small fraction of that force.

Can the London conference long talk disarmament without slashing these vast expenditures on all sides and at both bottom and top?

## NO SPINSTERS

Like the Aztecs and Amazons the "old maids" are a vanishing race. A literary searching party sent into the field for the latter by one of the woman's magazines found some evidences that the once existed and traced some legends that have been handed down from generation to generation.

There are still unmarried ladies of past marrying age, but they are no longer spoken of as spinsters contemplated sadly, made the brim of derisive wit, nor found to conceal their state as something disgraceful and unblended.

Time was when the unmarried woman over 30 kept very quiet about her "single blessedness." Now she proclaims it about an aloft. Of old it was hurt pride the made old maids profess preference for their lonely existence. Today many women are sincere in protestations of that sort.

A number of things have wrought this social revolution. Emancipation of womanhood contributed. Industrial independence and virtual equality between the sexes in business helped remove the old-maid stigma. The changed economic order which placed millions of women in a better position to support a husband than millions of men are in to support a wife added fuel to the feminist's fire.

Sentimentalists who weep for the old and deary the new will concede at least, that abolition of the bond age of spinsterhood was a humanitarian stroke.

Wouldn't it be great if all grannies were as bad off as they think they are?

The menu consisted of fruit-cup, boiled ham, potato salad, baked beans, pickles, olives, cheese, rolls, butter, coffee, tomato salad, ice-cream and cake. The room was attractively decorated for the occasion, the color scheme being red and blue, and the tables were covered with the red and blue crepe paper.

Favors were little candlesticks. Following the supper, a social time was enjoyed and all departed for their homes at a late hour.

# An Investment that does not fluctuate in value— Life Insurance

OWNERS of life insurance have had occasion recently to compare the stability of this form of investment with that of even the highest grade securities.

A chart of the market price averages of leading stocks for twenty years shows an irregular line that rises and dips, sometimes vertically, with "peaks and valleys".

There are no "depressions" in the investment values of life insurance policies. They do not fluctuate with business cycles. From year to year, the 44 million Metropolitan Life Insurance policies show a steady increase in values to policy-holders.

The man who regularly invests part of his earnings in life insurance can go to sleep each night with the knowledge that he is building an estate of the greatest security and with a sure investment return for every dollar paid in.

Life insurance is an investment whose value constantly increases the longer it is kept in force.

### GOITRE NOT A DISEASE

Milwaukee Doctor Makes Remarkable Discovery

Milwaukee, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. F26, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The Doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today. (Address)

## Plans Completed For Methodist Financial Canvass

Plans were completed last night for the "every-member" financial canvass of the membership of the Methodist Church. An interesting and enthusiastic meeting of the workers was held in the church parlor and it was very well attended.

Final details were discussed, the soliciting teams were given their assignments and the envelopes were distributed.

The visitations will be made on Sunday afternoon after the regular morning church service. Co-operation of the church membership is urged to the extent that they, if possible, be at home when the solicitors call and be prepared to fill in their pledge cards.

Every effort is to be made to complete the canvass on Sunday and a partial report will be made at the evening church service. A final report will be submitted to the membership upon the completion of the canvass.

Non-resident members are to be solicited by letter and every one enrolled as a member of the church is to be requested to contribute toward its support.
